

BLIND SPOT DETECTION

Have complete confidence when changing lanes or backing into traffic

**BLIND SPOT
DETECTION**

**CROSS TRAFFIC
DETECTION**

Your dealer can add a modern, reliable blind spot monitoring & detection system to this vehicle

Accurately detects unseen vehicles in your vehicle's blind spots & alerts you with a visual warning light mounted on the vehicle's windshield pillar.

System includes Cross Traffic Detection: When the vehicle is in reverse, the system changes the radar pattern to look for oncoming traffic directly on each side of the vehicle.
